

Rainy Day Scavenger Hunt:

1. Listen for four sounds that the rain makes as it falls on different surfaces. Can you make the sounds yourself to demonstrate to the others? Can they guess what the rain was falling on?
2. Find a place where an animal could go to keep dry.
3. Find a natural umbrella for yourself in the woods.
4. Capture a rain drop on your tongue. Does it have a taste?
5. Discover something the rain has made darker in colour.
6. Touch something the rain has made slimy.
7. Find a puddle that's deeper than the first joint of your "pointer" finger.
8. Find a puddle with something floating on top.
9. Discover an animal that's not bothered by the rain. What is it doing?
10. Identify or describe or sketch the clouds overhead. Can you make any imaginary pictures with the cloud shapes?
11. Which way the wind is blowing.
12. Is it raining, drizzling, or misty? What is the difference between the three?
